Allowable Subject Matter

1. Claims 1, 4-6, 9-11, 13-15 and 34-51, renumbered 1-28, are allowed.

The following is an examiner's statement of reasons for allowance: a method including: determining first values for a plurality of first parameters and at least one second parameter for a communications link, the first parameters being associated with a first layer of an OSI model communications system and the second parameter being associated with a second layer of an OSI model communications system; sending first information using the first value for the communication link, and the communication link being either an intracell or and intercell communication link; obtaining second information regarding characteristics of the communication link in response to a result of the steps of sending; adjusting a plurality of the first values in conjunction in response to the second information, whereby further use of the communication link is responsive to the steps of adjusting; performing the step of determining with regard to both a first communication link and a second communication link; performing the step of sending with regard to both first communication link and a second communication link; performing the step of obtaining with regard to both first communication link and a second communication link; and performing the step of adjusting in response to a result of the obtaining step for each of the first and second communication link, whereby the adjusting step is responsive to potential interference between communication on the first communication link and the second communication link, as recited in independent claims 1, 6, 11, 34, 35 and 38.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
